

MECHANICAL

SPECIFICATION

- ✓ Mechanical latch with roller function.
- ✓ Universal (left and right).
- ✓ Symmetrical, narrow.
- ✓ Tongue adjustment: 2 mm.
- ✓ Designed for use in narrow profiles.
- ✓ Compatible with standard electric strike faceplates.
- ✓ Intended for doors with pull handles / push bars.
- ✓ Reinforced spring keeps the door in a closed position.
- ✓ In day/night mode, after switching a special lever to the closed position, the door can only be opened with a key.

Option available upon customer request with reinforced increasing spring permissible preload
